A Selection of our Projects

The Future Fund of the Republic of Austria subsidizes scientific and pedagogical projects which foster tolerance and mutual understanding on the basis of a close examination of the sufferings caused by the Nazi regime on the territory of present-day Austria.

Keeping alive the memory of the victims as a reminder for future generations is one of our main targets, as well as human rights education and the strengthening of democratic values.

Beyond, you will find a list of some projects in English approved by the Future Fund since its establishment in 2006. For further information in German about the content, duration and leading institutions or persons of each project, please refer to the database (menu: "Projektdatenbank") on our homepage www.zukunftsfonds-austria.at.

http://www.zukunftsfonds-austria.at/download/project_summary.pdf
